

Report by ISCA president

Mogens Kirkeby

Producing Human Capital

ISCA strives to develop people and society. Sport in an ISCA context is developing the conditions for Sport for All, for people and society.

How to increase the value of the Human Capital!

What does the World need from ISCA?

Shared Leadership

a stronger political profile

The organisational structure – clear, easy and operational

Two tiered structure:

Thematic Networks

Continental Committee

Misc.

ERICarts: Consultancy fee “Sport and Intercultural Dialogue”
Speeches, presentations, congress moderations.
Project fee – non ISCA coordinated projects

It is time for Change!

Because, today we have an organisational and operational platform.

We have external recognition – and we should use this to communicate political messages supporting our goal for the Sport for All sector.

This should be activated by the presidents and vice presidents. This is to be realised by executive committee members, the national members - and of course also by the highest authority of ISCA – the General Assembly.

Global, National and Local Challenges:

Economic stagnation

Public Health - our lives

Ageing populations

Integration and Intercultural Dialogue

Climate and environmental changes

What does the World need from ISCA?

ISCA is due to our statutes open to Non-governmental idealistic organisations and other institutions which;

- are engaged in sports and/or cultural activities.**
- are local, regional, national and international bodies**

If the future development of the Sport for All sector is depending on not only you – the current members of ISCA - but in a very high degree also of your partners.

Should these types of institutions also be of interest for ISCA.

The Name of the Game

“Sport For All”

“All for Sport”

“For all Sport”

The Name of the ISCA Game

“Your Sport is Our Sport”

“Human Values in Action”

‘We do it!’

“One World – Many ideas”

“Physical Activity - building a healthy society”

“Sport for All – an investment in Human Capital”

What does the World need from ISCA?

What is the name of the game!
