Motivation letter

Dear Sir/Madam,

I am applying for the position of Executive Committee member in your organization. As a President in Sport for all organization I already have a lot of administrative and organizational experience in a national level established organization, which mainly works on projects related to the organization of national and international sport events (festivals, trainings, workshops, daily events, campaigns, etc.). During the terms of my employment, I have coordinated many projects regarding multilateral meetings and events from the scratch to the delivery of the same.

My motivation for applying for this position is because I would prefer being part in an international organization, as I do believe that different cultures impose different working styles, and as such would reflect on my work and personal development as well. Also, I think I can contribute in interchanging knowledge and experience which can be a great value to the other members and member organization.

Furthermore, given the aforesaid experience in organization of the international events it will be great opportunity to develop and enrich the program in the Association Sport for all.

I appreciate your time for reading this letter and my curriculum vitae. Should you wish to contact me, all of the details are in the attached CV.

Sincerely,

Branko Vujovic
