

Sports Club for Health

SPORTVISION 2012 Copenhagen, Denmark 20.3.2012

> **Eerika Laalo-Häikiö** Finnish Sport for All Association

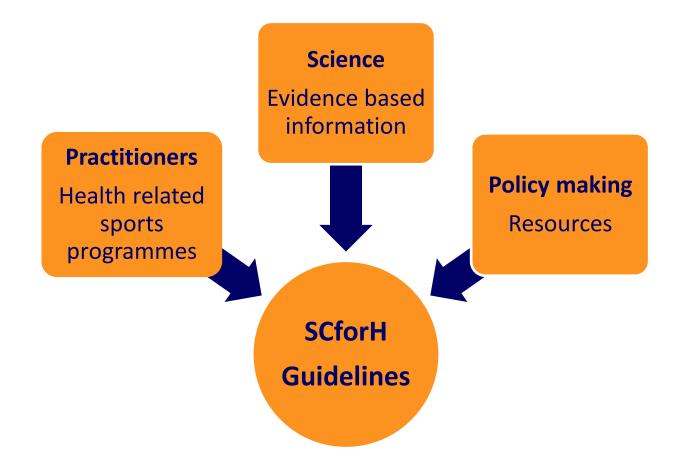

The Background of SCforH

- Funding by EU DG Education and Culture 2/2010-5/2011
- There were two essential aims:
 - 1. To update and develop initial stage SCforH Guidelines
 - To develop networking in the area of health-enhancing physical activity (HEPA) with special focus on sports clubs
- Partners: Estonia, Croatia, Italy, Poland, Spain
- International network: TAFISA, ENGSO, ISCA, HEPA Europe, EFCS
- The focus is in civic-organisations and voluntary based sports clubs
- Setting based approach: sports clubs are seen as settings to promote health through their own sporting activities

From theory to practice

Policymakers' expectation

The EU Physical Activity Guidelines assign organised sport a prominent position in HEPA activities!

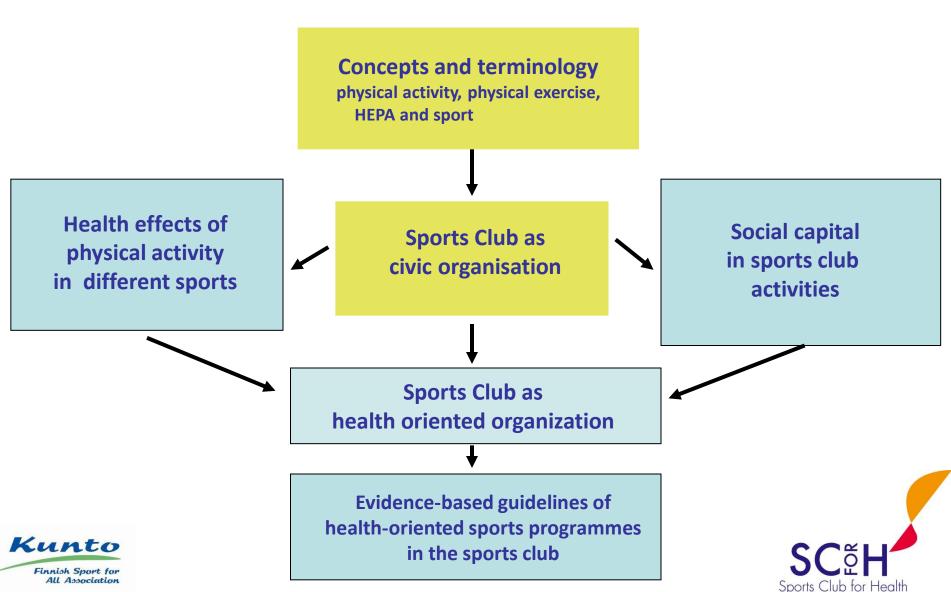

"Sports organizations contribute to the social well-being of communities and can ease pressure on the public budget. Through their versatility and cost effectiveness, clubs can help meet the need of the population for physical activity. A major future challenge for the organized sports sector should be to offer high-quality health-related exercise programs nationwide."

Sports Club for Health

- Framework for the SCforH programme

Why should sports clubs promote health?

- Decline in physical activity levels is a major challenge in all western countries
- Sports can benefit health especially effectively (vigorous PA)
- Sports clubs are the cornerstones of sports
- Health benefits of sports have not been exploited sufficiently for public health
- Sports community should act on the opportunity to realise its social responsibility
- A chance to develop the culture of a given sport throughout the life-span

Focus on sports clubs

- To mobilise the health potential of sports the health perspective has to be identified in the sports club context
- Sports clubs offer a social network and a place where health issues can be discussed in an informal way
- SCforH provides guidelines to clubs
 - how a sports club can identify health as one of its goals and begin to develop health promoting activities in a form of a structured programme

Who are these guidelines for?

- To sports clubs: elected trustees and club leaders, paid officials, coaches, instructors and other grass-root actors, club members
- To national and international associations: inform the importance of the health perspective in sports and their clubs' activities
- <u>To other stakeholders</u>: national, regional and local sport and health authorities and experts

The SCforH Guidelines

1st STAGE - Planning

Guidelines

- 1: Identify the support and possibilities for SCforH programme within your club
- 2: Identify the health potential of your clubs sporting activities
- 3: Explore the knowhow and material support outside your club
- 4: Ensure the quality of your SCforH programme
- 5: Agree on the aims and formalise the strategy and operating procedures

The SCforH Guidelines

2nd STAGE - Implementing

Guidelines

- 6: Inform about the forthcoming actions internally and externally
- 7: Secure the competence of instructors and support them in programme delivery
- 8: Monitor the feasibility of planned activities and gather data for documentation

The SCforH Guidelines

3rd STAGE – Documenting and communicating

Guidelines

9: Keep records of your SCforH programme actions

10: Share your success within, outside and beyond the club

Work packages

WP 1 Project management coordination and economy

Jorma Savola

WP 2
Development
of SCforH
guidelines and
networking

Sami Kokko, Pekka Oja, Charlie Foster WP 3 Model certificate system for the assessment of SCforH

> Herbert Hartmann

WP 4 Health profile of different sports

Ari Heinonen

WP 5 The leadership and management of SCforH

Pasi Koski

WP 6 Funding

system for

SCforH

WP 7
Evaluation of the SCforH

Stjepan Heimer, Charlie Foster

Developing the next phase of the guidelines, input from the workpackages

European-level networking bodies in the concluding symposium

Final version of SCforH guidelines, published September 2011

Progression of European-level networking – open to all

Future direction (1)

Dissemination and implementation of the guidelines

- Open to all organizations in the field of sport
- Development of the work packages continues
- Experts in use
- A tool in the European Physical Activity Guidelines
- Translations of the material
- National programmes

Future direction (2)

European network

- HEPA Europe, ENGSO, ISCA, TAFISA, EFCS already involved
- SCforH as a part of already existing networks and forums
- The role of national sports confederations and international sports federations
- A strong alliance between health and sport, evidence-based information
- Policy making, funding

Evidence-based information needed

- Health profiles of different sports, social and mental effects
- More research

Thank you!
