MOVE Work Package 6: Pilot Actions

Prof. Dr. Alfred Rütten

Friedrich-Alexander-Universität
Erlangen-Nürnberg

Work Package 6 Overview

- **WP Content:**
  15 Collaborative Partners (CPs) of MOVE will implement pilot actions based on the MOVE handbook

- **WP Goals:**
  - Empowering CPs to implement good practice
  - Getting feedback on the MOVE handbook

- **WP Lead:** Univ. of Erlangen-Nürnberg (ISS)

- **WP Duration:** May 2012 (M15) – Feb. 2014 (M36)

WP6 within the MOVE Project Logic

WP4
Good Practice
Handbook

WP6

Implementation
of pilots by CPs

WP5
Networking
with CPs

Pilot Preparation Phase

- Selection of CPs to conduct pilots (if WP5 yields more than 15 CPs)

- Selection of suitable good practice from MOVE good practice handbook (WP4)

- Co-operation of APs and CPs to prepare pilot actions

➡ *ISS will develop framework/guidelines on how to conduct the pilots*

Pilot Implementation Phase

- Each of the selected CPs will conduct one pilot action → 15 pilot actions (very ambitious!)

- But: pilots may be full-fledged projects but also innovative partnerships, model projects, thematic projects, special practices

- No pre-defined structure, except:

  - max. duration 1 year (Dec. 2012–Dec. 2013)
 - limits set by WP6 framework/guidelines

Pilot Implementation Phase: Support

- Known problem of local-level projects: local communication and promotion work

➡ Each pilot has its own communication budget (3000 €)

- Support for CPs and pilots by:

  - WP leader (ISS): part-time position and travel budget available

  - APs (special responsibility for CPs engaged in WP5?)

Work Package Deliverable

- Short paper with

  - summary of main findings

  - highlights of pilot projects

  - lessons learned from the pilot projects

- Report to be used as

  - Feedback for MOVE handbook

  - Final project report

➡ *Inputs for deliverable to be delivered by CPs will be specified in WP framework*

Work Package Timeline

Questions to be discussed

- General questions on Work Package setup/conduction

- Selection of suitable CPs to conduct pilots (WP5)

- Selection of good practice to be implemented (WP4)

- Overlap of engaging/selecting CPs before good practice has been defined

- How can we limit the workload for 15 pilots to a reasonable extent?

- Role of MOVE APs in WP6

Thanks a lot for your attention!
