### **YesWeRun**

YesWeRun is a non-formal education programme in International Project Management for young leaders in Europe. The programme includes 3 residential trainings and 2 practice phases. Participants are expected to attend all the stages as they offer a complete educational experience in Project Management.

Participants will learn key principles in Project Management and implement these into their organisations by initiating, developing, managing and delivering a project during MOVE Week 2013 which is delivered as part of the Now We Move campaign - [NowWeMove.com](http://NowWeMove.com)

After the Second Step (second residential training), participants are expected to develop international projects, which will be implemented before the last training. They will build the draft of the project application during the training, under the mentorship of the trainers and experts and after the training will receive support from experienced project managers in ISCA and our member organisations.

Through this programme, ISCA intends to create its own Pool of Project Managers across Europe, which will work closely with ISCA Youth Network Coordinator to increase the number and quality of events across the continent. This will involve fostering community spirit; carrying the values of volunteering and promoting active citizenship.
